BATUHAN KARAMAN

✉ kbk46@cornell.edu batuhankmkaraman.github.io

INTERESTS

LLM research & product Reasoning LLMs, RLVR/RLHF, Alignment, VLLMs, Agents, Responsible AI
Health AI Longitudinal data analysis, Clinical decision support, Medical Imaging

EDUCATION

Cornell University Ithaca, NY
Ph.D. in Machine Learning (ECE) 2020 - 2026
Advisors: Mert Sabuncu, Katerina Dodelzon (from Weill Cornell Medicine Radiology)

- My PhD research focused on developing time-series and computer vision methods to predict clinical outcomes from longitudinal multimodal biomedical data.

Middle East Technical University Ankara, Turkey
B.S. in Electrical Engineering 2015 - 2020

EXPERIENCE

Amazon Web Services (AWS) Health AI Sunnyvale, CA
Applied Scientist Aug 2026 - Present
Supervisors: Guoli Sun, Thayn Moore

- Working on responsible AI for multiple healthcare agents.

Amazon AGI Sunnyvale, CA
Applied Scientist Intern Jun 2025 - Sep 2025
Supervisors: Mohammad Ghavamzadeh, Arijit Biswas, Ruida Zhou

- Developed a novel REINFORCE-based RLVR algorithm that achieves state-of-the-art performance on various math reasoning benchmarks using Qwen- and Llama-family models.
- Analyzed the sources of instability in the REINFORCE Algorithm.

Microsoft AI Redmond, WA
Applied Scientist Intern Jun 2024 - Aug 2024
Supervisors: Xia Song, Alon Benhaim, Maggie Engler (previously at Inflection AI)

- Worked on the safety and usefulness balance of Llama- and Phi-family models through SFT and preference optimization.
- Developed a novel preference optimization method, achieving a 30% reduction in model overrefusals.

Spectral AI Dallas, TX (Remote)
Deep Learning Scientist Intern (Part-time) Aug 2023 - Nov 2023

- Designed a multimodal cross-attention-based model for diabetic foot ulcer healing prediction, combining multi-spectral imagery and clinical data. Achieved improved lesion localization.

Spectral AI Dallas, TX
Deep Learning Scientist Intern Jun 2023 - Aug 2023

- Enhanced a multimodal convolutional model for diabetic foot ulcer healing prediction, integrating multispectral imagery and clinical data. Improved classification accuracy by 8%.

INVITED TALKS & SYMPOSIUMS

1. Distinguished speaker at the 6th Global Conclave on Neurology and Neurological Disorders (NEURO Conclave 2025): "Assessing the Significance of Longitudinal Data in Alzheimer's Disease Forecasting".
2. Distinguished speaker at the 5th International Conference on Future of Preventive Medicine and Public Health (Future of PMPH 2025): "Longitudinal Mammogram Risk Prediction".
3. Machine Learning in Medicine Symposium (MLIM 2022): "Machine learning based multi-modal prediction of future decline toward Alzheimer's Disease".

HONORS & AWARDS

- Best Paper Award, International Conference on AI in Healthcare (AIiH), 2024.
- Irwin Jacobs Scholar Fellowship, Cornell University, 2020.
- METU High Honor Award, METU, 2020.

SERVICE

- **Reviewer:** ICML, NeurIPS, ICLR, AISTATS, Nature, PloS, MELBA, AIiH, Journal of Alzheimer's, etc.

[†]Work done during an internship at Amazon AGI.
[‡]Work done during an internship at Microsoft AI.
[*]Indicates equal contribution.

– **Teaching:** Mentored multiple Cornell Master's and Undergraduate students on their graduation projects and theses.
